American Revolutionary History Comes to Life in a Modern Neighborhood with The War of Independence Way!

written by Brian Pinaire on sale January 8, 2024

"The War of Independence Way has all the things my kids love best—action, tacos, and relatable kids. It also has the things I love best as a mom and political scientist—meaningful stories to share with my children about history, politics, and the struggles for democracy."

- Jennifer Schenk Sacco, professor of political science

<u>Brandylane Publishers, Inc.</u> of Richmond, Virginia, is excited to announce the release of a new middle-grade book, *<u>The War of Independence Way</u>*, written by Brian Pinaire.

The kids of Colonial Township have a big problem—and his name is Georgie King. Georgie's a bully who lives in a big house across the pond in Crown Township, and his favorite pastime is collecting his flunkies, the Reds, to terrorize the kids in Colonial.

But after one particularly egregious attack, the kids decide they won't stand for Georgie's antics any longer. Convening to consider (among other things) the question of just how much a group of kids should be expected to tolerate, they select a leader and formulate a plan, leading to a series of escalating pranks that rock the neighborhood—and the Internet. Can the residents of Colonial Township's thirteen blocks band together to end Georgie's reign of terror once and for all?

A creative take on the war for American independence that will teach children about this period in history in a whole new way, *The War of Independence Way* was released on January 8, 2024.

The War of Independence Way opens with the Reds (the British redcoats), bullies from Crown Township, blasting Massachusetts Avenue boys with paintballs (the Boston Massacre) on the orders of their leader, Georgie King (King George III), the richest kid around and the worst eighth grader in history. Members of Down with Crown, a "secret society," get revenge by dumping lemonade over Georgie's head rather than pay "taxes" on their profits. Which works out well . . . except that it starts a war that Independence Way seems to have no chance of winning.

Because the neighborhood needs her, GW (George Washington) reluctantly leads the Independence Warriors. But despite early victories, such as crossing Delaware Creek to humiliate Georgie in his own school, the Warriors, already under-resourced, become completely overwhelmed. GW hatches a plan that is either fantastically brilliant or incredibly stupid: attacking the Reds inside the Taco Bell at York Road and Town Boulevard, while also gathering "sensitive" information on them to make them give up.

Eventually, Georgie surrenders (sort of), but without something to be against, the kids wonder what it is they are for. Will Independence Way remain thirteen separate blocks, or can the neighborhood become "united streets"?
